

FEDERAL BUREAU OF PRISONS

2014 EIGHTH CIRCUIT JUDICIAL CONFERENCE

**KATHLEEN M. KENNEY
ASSISTANT DIRECTOR/GENERAL COUNSEL**

Judicial Conference Objectives

Understanding the Role of the BOP

- BOP Overview
- Designation Process
- Programs
- Compassionate Release/Reduction in Sentence
- Clemency

BOP Overview

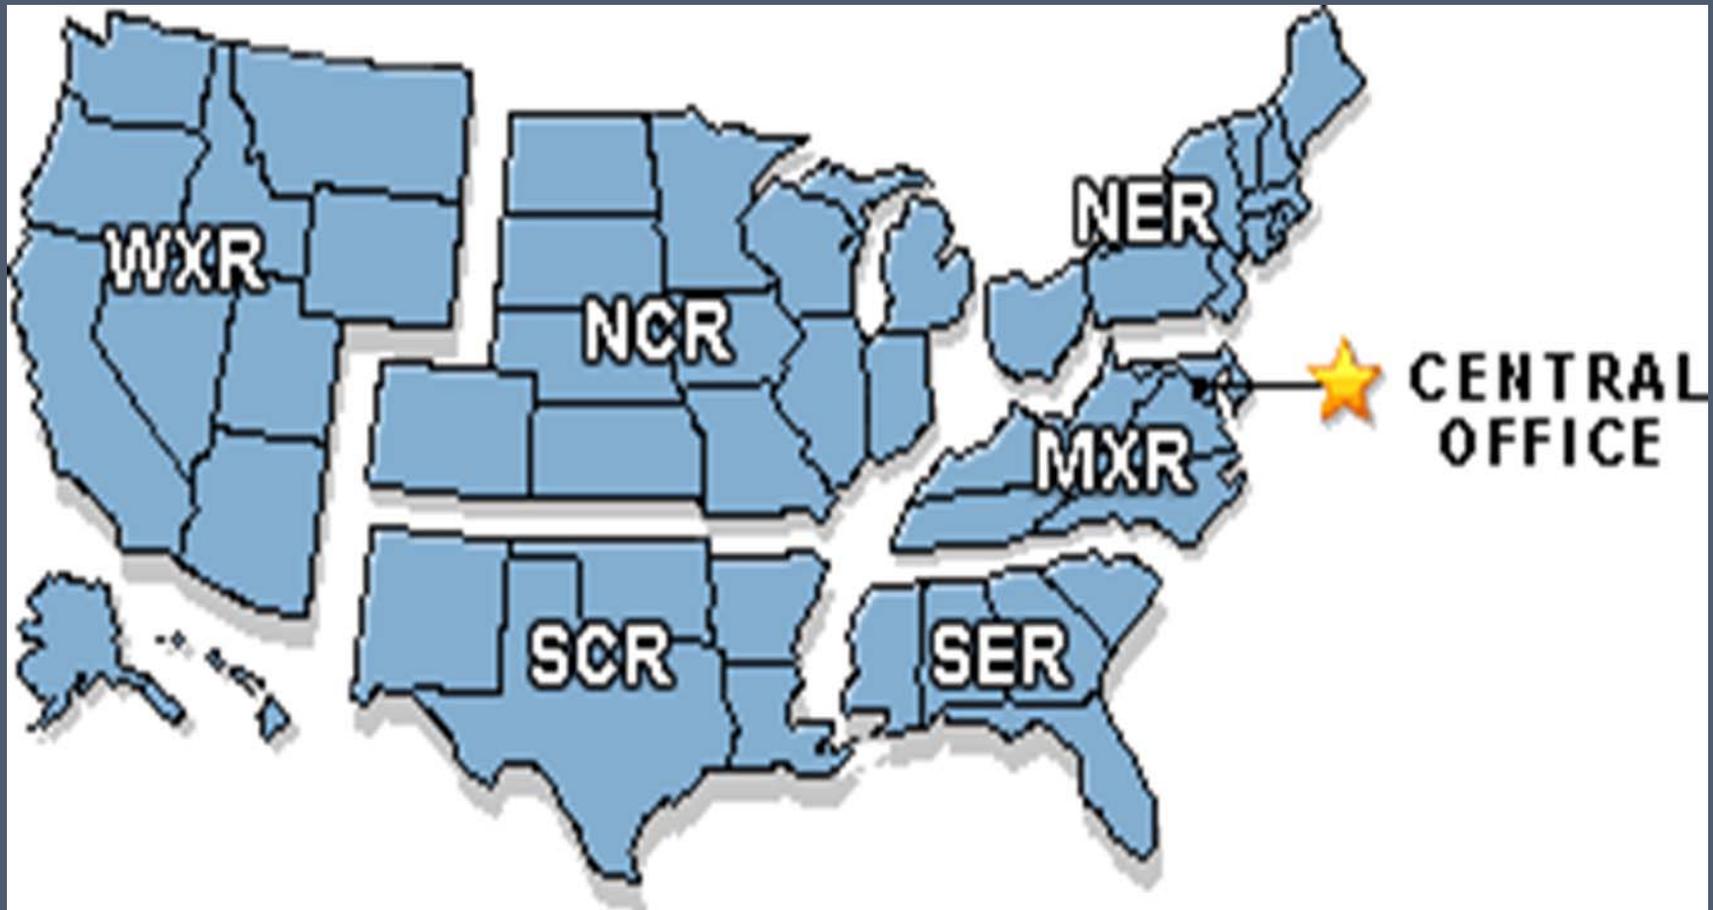

- 1895 -USP Leavenworth, Kansas was the first federal prison built.
- 1930 – Federal Bureau of Prisons established to manage the 14 federal institutions then existing.
- 2014 – **121** Institutions
- Total BOP Staff: **39,118**

BOP Inmate Population = 216,312

- Approximately 81% in BOP facilities, 19% in contract facilities .
- 93% male and 7% female.
- Average inmate age is 40.
- 49% of inmates were convicted of drug offenses.
- Average number of days in RRC is 143.

Federal Bureau of Prisons The Central Office & 6 Regions

Inmate Citizenship

- United States: 76%
- Mexico: 18%
- Colombia: 1.0%
- Dominican Republic: 1.0%
- Other/Unknown: 4.0%

Types of Facilities

- **Minimum** - Federal Prison Camps
- **Low** - Low security Federal Correctional Institutions (FCI)
- **Medium** - Medium security FCIs
- **High** - United States Penitentiaries

Types of Facilities

- **Administrative Maximum** - ADX Florence
- **Administrative** –
 - Metropolitan Detention Centers,
 - Metropolitan Correctional Centers,
 - Federal Transfer Centers, and
 - Medical Referral Centers

INMATES BY SECURITY LEVEL

BOP facilities only:

- Minimum: 16%
- Low: 40%
- Medium: 29%
- High: 11%
- 4% of inmates have not been assigned a security level.

Crowding

- Over the past decade, the inmate population has increased by an average of 4,700 inmates per year. It is worth noting that the growth has been slower the last two years and since the beginning of FY 2014 our population is down about 3,300 inmates.
- System-wide, the Bureau is operating at 32 percent over rated capacity and crowding is of special concern at higher security facilities, with 52 percent crowding at high security facilities and 42 percent at medium security facilities.

New Facilities

- FCI Berlin, NH
- FCI Aliceville, AL
- FCI Hazelton, WV
- USP Yazoo City, MS
- AUSP Thomson, IL

DESIGNATION PROCESS

**Federal Bureau of Prisons
Designation and Sentence Computation Center
Grand Prairie, Texas**

Opened in 2006

DSCC Initial Designations

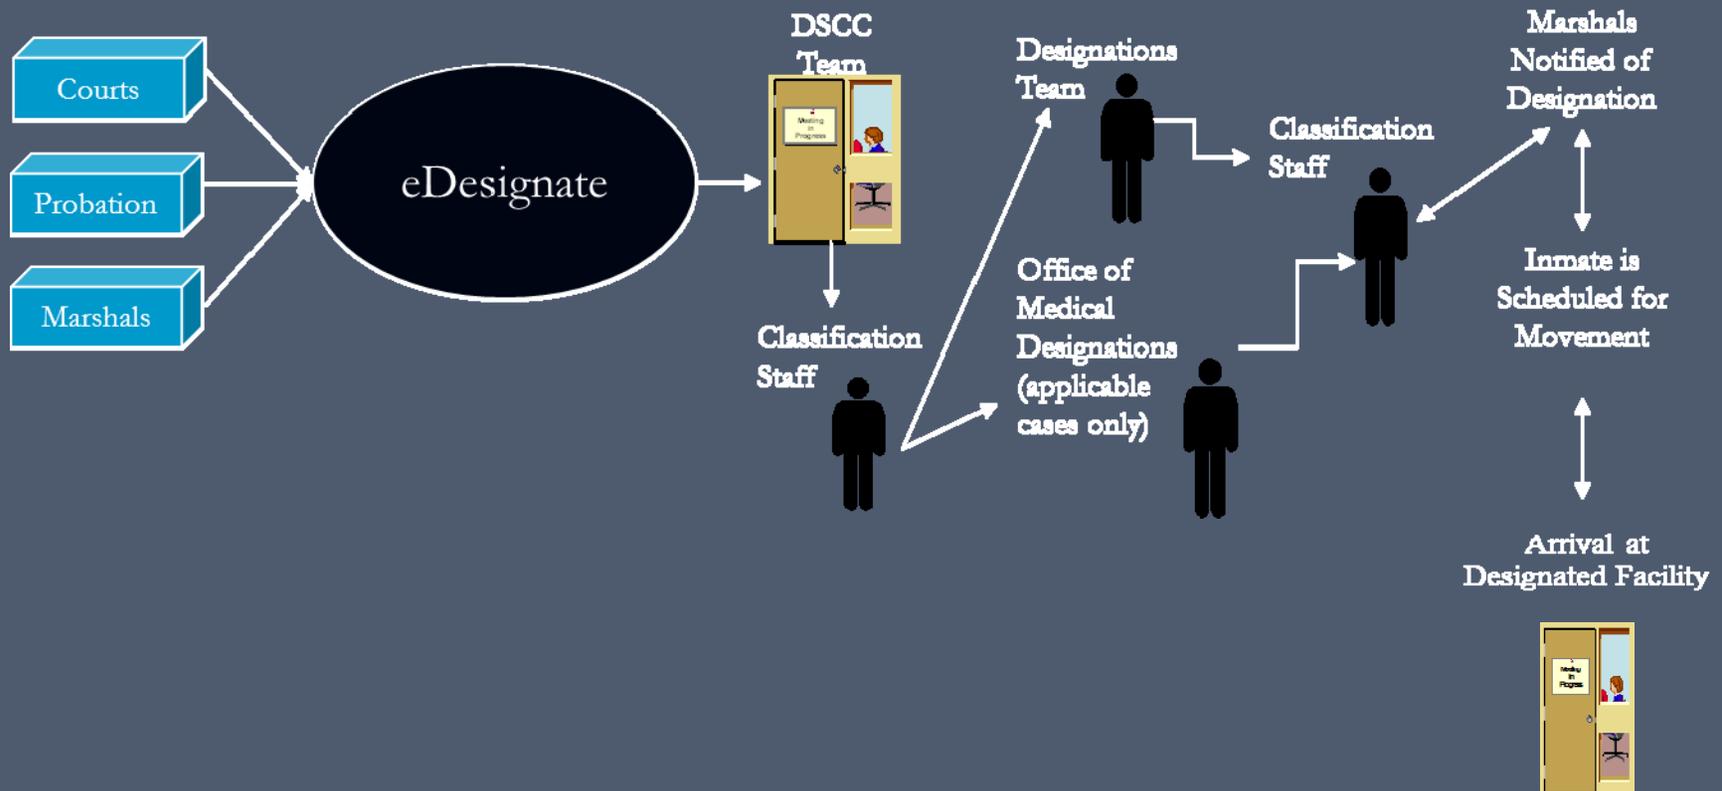

- 2007 – 70,057
 - 2008 - 62,290
 - 2009 - 75,694
 - 2010 - 78,037
 - 2011 - 89,366
 - 2012 - 80,511
 - 2013 - 79,176
 - 2014 - 38,708 (through June 2014)
- 573,839 Total

Designation Process

- Program Statement 5100.08, *Inmate Security Designation and Custody Classification*, available at www.bop.gov
- Designation documents include:
 - Pre-Sentence Report (PSR)
 - Statement of Reasons (SOR)
 - Judgment in a Criminal Case (J&C)
 - US Marshals 129 (Custody Report)
- The US Court transmits the J&C to USMS
- USMS makes request for designation to responsible DSCC Team based on sentencing district (COJ)
- Current average time from request to designation is 5.1 days.

Process from Sentencing to Designation

Initial Designation Process

- eDesignate System is being used in all 94 Federal Judicial Districts and DC Superior Court.
- USPO loads J&C, PSR and SOR into eDesignate & sends to USMS.
- USMS sends request to responsible DSCC Team with USMS Form 129, J&C, PSR and SOR.

Primary Factors

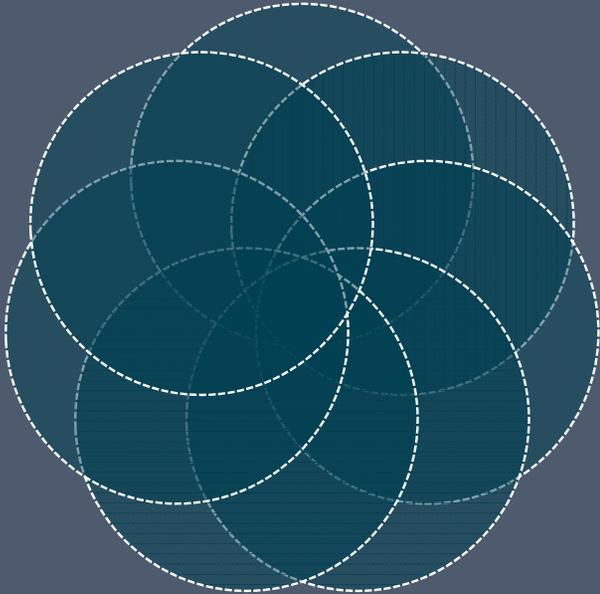

Severity of
Current Offense

Detainer

Defendant's
Age/Education

Drug/Alcohol
Treatment Needs

Release Date

Judicial
Recommendation

Criminal,
Violence, and
Escape History

Judicial Recommendations

- The BOP is committed to following judicial recommendations when consistent with BOP policy and correctional judgment.
- Most common recommendations concern place of confinement and programming.
- Prefer recommendations in J&Cs based on reason (i.e. close to release residence, lowest security level facility) rather than recommending specific institution
- 71% of judicial recommendations regarding designations followed in calendar year 2014.

Other Factors Considered:

- Level of care (medical and mental health)
- Public safety factors
- Programming needs
- Release residence
- Bed space availability
- Parole eligibility
- Alien status
- Background of aggressive sexual behavior
- Central Inmate Monitoring
- Gang affiliation/ties to terrorist groups/activities

Designation Process

- Upon designation, DSCC staff notifies USMS and designated facility via eDesignate of designation and packet is automatically forwarded to designated facility via eDesignate.
- Self-surrendering inmates are notified by the Probation Office, who receives via eDesignate the location for the inmate to report.

Computation of Federal Sentences – 18 U.S.C. § 3585

- Credit for pre-sentence custody under 18 U.S.C. § 3585(b):
 - Credit only for time in official detention.
 - No credit for time in release status even if under restrictive conditions (RRC or home confinement). Reno v. Koray, 115 S.Ct. 2021 (1995).
- No credit for time served, or credited towards another sentence.

Medical Care Levels

- Care Level 1 – Healthy/simple chronic care
- Care Level 2 – Stable, chronic care
- Care Level 3 – Unstable, complex chronic care
- Care Level 4 – Medical referral center care required

Medical Centers (Care Level 4)

- FMC Butner, North Carolina
- FMC Carswell, Texas
- FMC Devens, Massachusetts
- FMC Lexington, Kentucky
- FMC Rochester, Minnesota
- MCFP Springfield, Missouri

Designations Stats

- Disciplinary and Close Supervision Transfers
 - 2013 = 13,185
 - 2014 = 7,242 (through June 2014)
- Routine Transfers Processed
 - 2013 = 38,556
 - 2014 = 21,414 (through June 2014)

Drug Abuse Treatment Programs

[http://www.bop.gov/inmates/custody_and_care/
substance_abuse_treatment.jsp](http://www.bop.gov/inmates/custody_and_care/substance_abuse_treatment.jsp)

Drug Abuse Treatment

- The BOP offers several drug abuse treatment programs.
 - Drug Abuse Education Course (offered at every facility);
 - the Non-Residential Drug Abuse Treatment Program; and
 - the Residential Drug Abuse Treatment Program (RDAP).

Residential Drug Abuse Treatment Program

- The most intensive drug abuse program offered by the BOP.
- Eligible inmates who successfully complete the program may be granted up to 12 months early release. See 18 U.S.C. § 3621(e)(2)(B).
- 89 RDAPs are available in 76 institutions.
- Over 3,581 inmates are on the waiting list for RDAP participation.
- Generally, an inmate must be sentenced to a term of 27 months to complete all phases of the program.

RDAP

- Admission based on proximity to release date.
- Participants are housed together to create a treatment community.
- 500-hour program (about a 9- to 12-month period).
- Components include a transitional drug program, when the inmate is returned to general population, and participation in community-based drug treatment, when the inmate is released to an Residential Reentry Center.

RDAPs By Region

- Northeast Region: 11
- Mid-Atlantic: 13
- Southeast Region: 12
- North Central Region: 16
- South Central Region: 14
- Contract Facility: 1 (Rivers, NC)

RDAP Early Release

- Since June 1995, the BOP has awarded approximately **62,834** inmates a sentence reduction pursuant to 18 U.S.C. § 3621(e) upon successful completion of the RDAP.
- **In 2013, 32%** of all inmates completing RDAP received full year off.
 - 2009 - 637 with full year off
 - 2010 - 701 with full year off
 - 2011 - 1121 with full year off
 - 2012 - 1802 with full year off
 - 2013 - 2195 with full year off
- 2014 Average time off - **10.4 months.**

RDAP Early Release Eligibility (28 C.F.R. § 550.55)

- Sentenced to a term of imprisonment under either:
 - 18 U.S.C. Chapter 227, Subchapter D for a nonviolent offense; or
 - D.C. Code § 24-403.01 for a nonviolent offense, meaning an offense other than those included within the definition of crime of violence in D.C. Code § 23-1331(4); and
- Successfully complete an RDAP, as described in § 550.53, during their current commitment.

RDAP - Eligibility to Participate

- Drug program administered by BOP which can result in an early release – up to one year per 18 USC § 3621(e)(2)(B)
- Eligibility to participate:
 - Sufficient time remaining on sentence (ordinarily 24 months)
 - Documentation verifying abuse of drugs, incl. alcohol (can be found in PSR or medical records prior to incarceration)
 - Verification to establish a pattern of abuse or dependence
 - Inmate is able to complete all phases of the program, including community transition treatment
 - Inmates with disqualifying convictions but documented substance abuse disorders may still participate in the program, but will not receive an early release benefit

Inmates Not Eligible for RDAP Early Release

- Immigration and Customs Enforcement detainees
- Pretrial inmates
- Contractual boarders (ex: State or military inmates)
- Inmates who have a prior felony or misdemeanor conviction for:
 - Homicide (including deaths caused by recklessness, but not including deaths caused by negligence or justifiable homicide);
 - Forcible rape;
 - Robbery;
 - Aggravated assault;
 - Arson;
 - Kidnaping; or
 - An offense that by its nature or conduct involves sexual abuse offenses committed upon minors.

Inmates Not Eligible for RDAP Early Release

- Inmates who have a current felony conviction for:
 - An offense that has as an element, the actual, attempted, or threatened use of physical force against the person or property of another;
 - An offense that involved the carrying, possession, or use of a firearm or other dangerous weapon or explosives (including any explosive material or explosive device);
 - An offense that, by its nature or conduct, presents a serious potential risk of physical force against the person or property of another; or
 - An offense that, by its nature or conduct, involves sexual abuse offenses committed upon minors.

Inmates Not Eligible for RDAP Early Release

- Inmates who have been convicted of an attempt, conspiracy, or other offense which involved an underlying offense listed in . . . this section; or
- Inmates who previously received an early release under 18 U.S.C. § 3621(e).

Mental Health Treatment and Studies

Mental Health Studies

- Evals may be performed by an outside (non-BOP) psychologist/psychiatrist by specifically designating in the study order.
- If the defendant is housed in a BOP facility, a judge may designate in the order that an outside psychologist/psychiatrist be admitted into the facility to conduct the examination.
- If the defendant is housed in a local non-BOP facility, a judge may simply designate in the order that an outside psychologist/psychiatrist be admitted into that local non-BOP facility to conduct the examination.

Mental Health Studies

- Local study by a community psychologist/psychiatrist is a much quicker and a less costly process.
- If BOP conducts the study at an MRC:
 - significant costs associated with transporting inmate to/from study site;
 - typically a delay of 2-4 weeks prior to transport, followed by usual 6-week stay for 30- to 45-day study case; and
 - 2-4 weeks to transport back = total 2-4 months process.
- If outside consultant performs study, it can be started immediately.
- If MRC is required, statutory timeline does not start until inmate is received at designated facility for eval.

Mental Health Studies

- If psychiatrist is mandated in order, this creates a serious backlog. There is limited bed space at MRCs for pretrial studies.
- BOP psychiatrists are tasked with treating our sentenced, mentally ill inmates and, consequently, are (mostly) in MRCs.
- Backlog at FMC Devens = 3- to 6-month wait; Backlog at FMC Butner = 60-day wait; Backlog at MCFP Springfield = 90-day wait.

Mental Health Studies

- Do not need a psychiatrist to perform eval.
- In the BOP, we reserve this task for our forensic psychologists.
 - 1,572 evals were completed in 2013, and 815 as of June 30, 2014

- Forensic Sites:
 - FCI & FMC Butner,
 - MCC Chicago,
 - FMC Carswell (females only),
 - FMC Devens,
 - FCI Ft. Worth,
 - FDC Houston,
 - FMC Lexington,
 - MDC Los Angeles,
 - FDC Miami,
 - MCC New York,
 - MCC San Diego,
 - FDC SeaTac,
 - FCI Englewood, and
 - MCFP Springfield.

18 U.S.C. § 3552(b)

- The “study shall be conducted in the local community by qualified consultants unless the sentencing judge finds that there is a compelling reason for the study to be done by the BOP or there are no adequate professional resources available in the local community to perform the study.”

Sex Offender Treatment

**NUMBER OF SEX OFFENDERS IN BOP –
26,748 (12.7% OF POPULATION)**

Sex Offender Treatment

- Sex offender treatment is provided as a program component of the Sex Offender Management Program (SOMP). All SOMP institutions are required to offer sex offender treatment services.
- SOMP is correctional management.
 - Mandatory program assignment for inmates who have been assessed a Public Safety Factor of sex offender, and who require additional correctional supervision.
- SOMP locations:
 - FMC Carswell, FMC Devens, FCI Elkton, FCI Englewood, USP Marion, FCI Marianna, FCI Petersburg, FCI Seagoville, and USP Tucson.

Sex Offender Treatment Programs

- **Residential SOTP:**
 - High intensity program designed for high risk sexual offenders (ordinarily, inmates with multiple sex offenses, or a history of contact sexual offenses).
 - Unit-based program with a cognitive behavioral emphasis. The co-housing of SOTP-R participants permits the implementation of a modified therapeutic community.
 - Offered at the FMC Devens and USP Marion.
 - Inmates need a minimum of 24-27 months remaining on their sentence to qualify for this program. The program is designed to be 12 to 18 months in duration.

Sex Offender Treatment Programs

- **Non-residential SOTP:**
 - Moderate intensity program designed for low to moderate risk sexual offenders. Most of the inmates in the SOTP-NR are first-time offenders serving a sentence for an internet sex crime.
 - Shares the SOTP-R's treatment philosophy and program materials, but lacks the frequency of treatment groups and the program duration of the SOTP-R.
 - Participants reside in the general population, there is no modified therapeutic community.
 - All SOMP institutions offer the SOTP-NR.
 - The typical duration of the SOTP-NR is 9-12 months.

Current Participation in SOTP

- Non-residential - 384
- Residential – 89
- Currently we are able to accommodate all inmates interested in participating in SOTP.

Sex Offender Management Program

- 4 essential components:
 - assessment,
 - management,
 - treatment, and
 - release planning.
- Individual evaluations: a Correctional Management Plan (CMP) is developed for each inmate.
- CMPs impose restrictions on mail and telephone communication, visiting privileges, and personal property.

SOMP

- Community release planning is a major part of the program. Prior to release from either the SOTP or the SOMP, staff prepare a comprehensive discharge packet for the USPO, with specific recommendations regarding expected intensity of community supervision and monitoring.

4248 Adam Walsh Act

Inmates Reviewed as of July 26, 2014:

- **48,549** inmates have been referred for review for potential certification as sexually dangerous persons;
- **35,847** of those inmates were determined to have, or likely have, qualifying conduct (i.e., engaged or attempted to engage in sexually violent conduct or child molestation) and, therefore, require formal review.
- **154** inmates have been certified as sexually dangerous persons, which represents a certification rate of less than one percent (about 0.3%).
- **55** inmates have been committed as sexually dangerous persons.

Retroactivity/Drug Reduction

- On July 18, 2014, the U.S. Sentencing Commission voted to allow delayed retroactive reduction in drug trafficking sentences.
- Absent Congressional action by November 1, 2014, inmates could be released under these reductions after November 1, 2015.
- Anticipated effects of the delayed retroactive reduction:
 - 46,290 inmates would be eligible to have their cases reviewed by a judge to determine if their sentences should be reduced.
 - Inmates eligible for a reduction could have their sentences reduced by an average of 25 months, or 18.8%. They would still serve 108 months, on average.

BOP Programs

- In the Bureau, reentry begins on the first day and continues throughout the inmate's term of incarceration.
- The Bureau is proud that presently 80% of offenders do not return to Bureau custody within three years of release.
- Our reentry model ensures that we provide effective, evidence based, cost-efficient treatment plans for inmates.

Programs Con't.

- The Bureau of Prisons' Educational Programs, ranging from basic literacy to high school level classes to post-secondary occupational courses are effective in reducing recidivism.
- All institutions offer literacy classes (GED), English as a Second Language, parenting classes, recreation activities, wellness education, adult continuing education, and library services.
- In FY 2013, **9,211 GEDs** were earned, and **4,837 GEDs** were earned through June 2014.
- Occupational and vocational training programs are provided at institutions based on the needs of the inmates, general labor market conditions, and institution labor force needs.

Programs Con't.

UNICOR

- Federal Prison Industries (FPI). FPI, or UNICOR, provides job skills training and work experience to 12,080 inmates in 81 factories around the country as of June 30, 2014.

Drug Abuse Treatment

- The Bureau of Prisons is required by statute to provide substance abuse treatment for eligible inmates (18 U.S.C. § 3621(e)). The Bureau operates 89 residential substance abuse treatment programs for the 30-40% of the inmate population who have a moderate to serious substance abuse problem.

Mental Health Services

- **Challenge**
 - Penitentiary program with the mission of providing treatment for inmates with drug abuse and/or mental disorders. Consists of a core program and two specialized treatment tracks for drug abuse and mental illness. Program is a minimum of 9 months.
 - Challenge is available at almost all high security institutions.
- **Resolve**
 - Trauma treatment program that consists of two primary components: psycho-education workshop and nonresidential program for trauma-related disorders. Available at female institutions and FCI Danbury for male inmates.
- **BRAVE (Bureau Rehabilitation and Values Enhancement)**
 - Intensive, cognitive-behavioral, residential rehabilitation program for medium security inmates. Inmates must be 32 years or younger, first time federal offender, and have a sentence of 60 months or more. Program is 6 months and available at FCI Beckley and FCI Victorville.
- **Step Down**
 - Treatment for inmates with chronic mental illness . Available at USP Atlanta and FCI Butner.
- **STAGES (Steps Toward Awareness, Growth, and Emotional Strength)**
 - Treatment for inmates with personality disorders, currently only available at FCI Terre Haute.
- **Skills**
 - Treatment for cognitively impaired offenders available at FCI Coleman and FCI Danbury.

Compassionate Release/ Reduction in Sentence (RIS)

RIS Consideration

Eligible

- Old Law Inmates
(18 U.S.C. § 4205(g))
- New Law Inmates
(18 U.S.C. § 3582(c)(1)(A))
- D.C. Code Offenders
(under D.C. Code)

Not Eligible

- State Boarders
- Military prisoners have
applicable military
code provisions

RIS Criteria: Medical

RIS requests may be granted to:

- inmates who have been diagnosed with a terminal, incurable disease whose life expectancy is eighteen (18) months or less.
- inmates who have an incurable, progressive illness or who have suffered a debilitating injury from which they will not recover. For inmates in this category, the Bureau will consider a compassionate release if the inmate is either completely disabled, meaning he or she cannot carry on any self-care and is totally confined to bed or chair, or is capable of only limited self-care and is confined to a bed or chair more than 50% of waking hours.

RIS Criteria: Non-medical

RIS requests may be granted to:

- elderly inmates meeting certain criteria regarding age, and length of time served, and in some cases, medical impairments relating to age;
- inmates who have experienced circumstances in which there has been the death or incapacitation of the family member caregiver of an inmate's child; and
- inmates who have experienced circumstances in which the spouse or registered partner of an inmate has become incapacitated.

Non-Exclusive Factors to Consider

- Nature & circumstance of offense.
- Criminal history.
- Victims.
- Detainers.
- Supervised release violations.
- Institutional adjustment/Disciplinary infractions.
- Personal history (PSR).
- Length of sentence & amount of time served (proximity to RRC/home confinement/release date).
- Current age, age at time of offense, and sentencing.
- Inmate's release plans (medical, financial, employment).
- Would release minimize severity of offense? Pose risk to community? Likelihood of reoffending?

Numbers

- **29 RIS approvals for calendar year 2011.**
- **39 RIS approvals for calendar year 2012.**
- **61 RIS approvals for calendar year 2013.**
- **49 RIS approvals from January 1, 2014, to July 31, 2014.**

REENTRY & Community Confinement

- **Residential Reentry Centers (RRC)**
 - 18 U.S.C. § 3621(b): “Any order, recommendation, or request by a sentencing court that a convicted person serve a term of imprisonment in a community corrections facility shall have no binding effect on the authority of the Bureau under this section to determine or change the place of imprisonment of that person.”
 - 18 U.S.C. § 3624(c)(1): “The Director of the Bureau shall, to the extent practicable, ensure that a prisoner serving a term of imprisonment spends a portion of the final months of that term (not to exceed 12 months), under conditions that will afford that prisoner a reasonable opportunity to adjust to and prepare for the reentry of that prisoner into the community. Such conditions may include a community correctional facility.”
 - Approximately 200 RRCs and 50 intergovernmental agreements for work release centers.
- **Home Confinement (HC) - 18 U.S.C. § 3624(c)(2)**
 - “The authority under this subsection may be used to place a prisoner in home confinement for the shorter of 10 percent of the term of imprisonment of that prisoner or 6 months.”
- **Currently, there are 9,913 inmates in RRCs (includes the work release inmates), and 3,106 inmates in home confinement.**

Clemency

- In May 2014, the inmate population was notified of the procedures for the Clemency Initiative, and they were provided with an electronic survey via TRULINCS. As July 28, 2014, approximately 26,833 electronic surveys were completed.
 - The BOP will be providing the electronic survey responses to the outside groups assisting with this initiative on a periodic basis.
- A paper version of the survey has also been provided to inmates that do not have access to TRULINCS and to inmates in private facilities. Inmates may mail the survey to the outside groups at a P.O. Box set up for that purpose. Approximately 1000 paper surveys have been submitted.
- **To be eligible for consideration, inmates must:**
 - Be currently serving a federal sentence in prison and, by operation of law, likely would have received a substantially lower sentence if convicted of the same offense(s) today;
 - Are non-violent, low-level offenders without significant ties to large-scale criminal organizations, gangs, or cartels;
 - Have served at least 10 years of their sentence;
 - Do not have a significant criminal history;
 - Have demonstrated good conduct in prison; and
 - Have no history of violence prior to or during their current term of imprisonment.
- **The BOP will assist with providing documentation needed for the outside counsel to review, and possibly use in a petition to the Pardon Attorney.**
 - The BOP has already provided a spreadsheet with public sentencing data (e.g. court of conviction, length of sentence, sentence expiration date) for the inmates that have submitted electronic surveys, to assist outside counsel with initial reviews of the survey responses.
 - Additional information to be provided will include progress reports, disciplinary history, and possibly medical records. The BOP will need the inmate's consent before releasing this information, and staff are working on a form for this purpose.
